SUMMARY

Full-stack developer with hands-on experience in building scalable and reliable applications using React, Node.js, Express, and MongoDB. Strong understanding of **software design principles**, **object-oriented programming (OOP)**, debugging, testing, and documentation. Experienced with **Docker-based containerization**, and **Agile collaboration**. Passionate about writing clean code, performance optimization, and continuous improvement.

EXPERIENCE

BWays Tecno solution

Jan 2026 - Mar 2026

Full Stack developer intern

- Developed RESTful APIs using .NET and SQL Server for an inventory management system, handling core business operations such as products, orders, and users.
- Built responsive frontend interfaces using React, including Admin Panel, Warehouse Dashboard, User Management, and Order Management pages.
- Used Git and Agile workflows to collaborate with the team, participate in code reviews, and track progress.

HKNA PVT solution

Sep 2025 - Dec 2025

Full Stack developer intern

- Developed and maintained RESTful APIs using Node.js and Express with MongoDB, reducing average API response time by 35% through query optimization and indexing.
- Built responsive, component-driven frontends with React. Improved first meaningful paint and overall page load time by 40% via code-splitting and lazy loading.
- Used Git and Agile workflows to collaborate with the team, participate in code reviews, and track progress.

EDUCATION

B.Tech in Computer Science and Engineering

2022 – 2026

Bennett University (The Times Group)

PROJECTS

Kodikos – Collaborative Code Editor [\[Link\]](#)

Aug 2025 – Sep 2025

React, Node.js, Express, MongoDB, WebSockets, Render

- Developed a distributed code editor enabling 2+ users to edit code in real time with sub-100 ms synchronization latency.
- Integrated multi-language support and auto-formatting using **CodeMirror**, following **software testing and debugging** best practices to ensure code stability.
- Built a live preview module that eliminated full-page reloads, improving testing efficiency by 100%.

Estia Stay – Hotel Booking Platform [\[Link\]](#)

Sep 2025 – Oct 2025

React, Node.js, Express, MongoDB, Clerk, Stripe, Vercel

- Built a full-stack hotel booking system handling 200+ API calls per day with secure authentication and optimized DB queries.
- Implemented **unit testing**, server-side validation, and debugging processes to maintain 99.8% uptime.
- Developed owner dashboards with analytics and automated image uploads using **Multer + Cloudinary**.

TECHNICAL SKILLS

- **Languages:** C++, DotNet, JavaScript (ES6+), Node.js, Express.js, React, HTML, CSS
- **Databases:** MongoDB, MySQL, Redis
- **Tools:** Git, GitHub, Postman, VS Code, Figma, Render, Vercel, Docker, AWS
- **Core Concepts:** Software Design Principles, OOP, Algorithms, DBMS, CI/CD, Containerization,
- **Professional Skills:** Cross-functional Collaboration, Problem Solving, Communication, Teamwork

CERTIFICATES

React - The Complete Guide 2025 (incl. Next.js, Redux) [\[Link\]](#)

Udemy

2025

Software Development Processes and Methodologies [\[Link\]](#)

Coursera

2024

ACHIEVEMENTS

• Competitive Programming (LeetCode) [\[Link\]](#)

- Solved 220+ coding problems including advanced DP, graphs, and algorithmic challenges.
- Peak rating: 1728 — Top 3% globally across multiple contests.
